

Kite

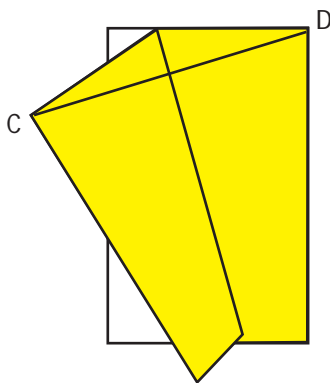

- 1 Fold paper in half

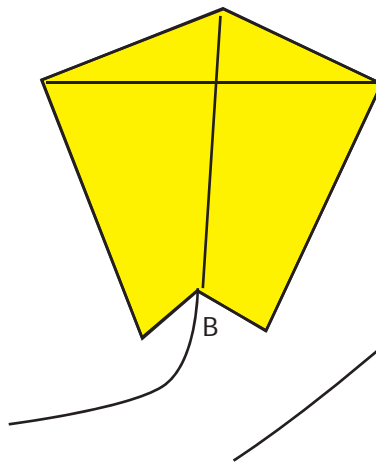

- 2 Fold again along the diagonal line. This diagonal line can be determined by making a mark at the top 1 cm from the fold and a mark at the bottom 7cm. from the fold and drawing a line between these marks.

- 3 Fold back one side forming kite shape and place tape firmly along fold line AB. (No stick is needed here because the fold stiffens the paper and acts like a spine.)

- 4 Place bamboo skewer from point C to D and tape it down firmly.

- 5 Cut off 2m of plastic ribbon and tape it to the bottom of the kite at B.

- 6 Flip kite over onto its back and fold the front flap straight up.

Punch a hole in the flap at E, about 1/3 down from the top point an additional piece of tape.

Tie one end of the string to the hole.
